

# Our outdoor learning charter

Here are some ways that we have agreed to operate in our setting with our outdoor learning provision.

## Communication

We ask everyone to contribute to our mission, our intentions and our aims, and we keep everyone up to date with changes and progress.

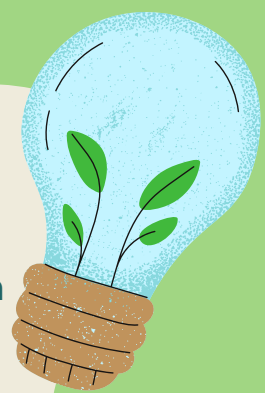

## Embrace the outdoors

We agree to make the most of the outdoors, whatever the weather. That means we talk about the outdoors positively and recognise how privileged we are to be able to go outdoors and learn. We dress appropriately for the weather.

## Embed the outdoors

We recognise the value of being outdoors and embed it in our timetables, never as a reward or sanction.

## Working in partnership

We recognise that we work better in collaboration with others who know more or different to us - we are always sharing and learning from each other.

## Sustainability

We do everything we can to make our setting and our local environment as sustainable and accessible as possible, so everyone can enjoy the outdoors now and in the future.
